

Willow Class  
Miserden Primary School

Hello again my cheeky fun makers of Willow Class and to everyone in Acorns, Maple and Oak Class,

It's me, Dobby. I just wanted to write to you to say thank you for making me feel so welcome here. I've been learning so much about you all while being in your classroom.

I'm sorry about the mess that I have been making. I just can't help myself as there are so many fun things in here to play with and explore! I hope that you don't mind.

I've been travelling back to the North Pole each night to meet with Santa and the other elves. The North Pole is an extremely busy place at the moment. Santa Claus and his team are working really hard to make sure that everything is ready for Christmas. Rudolph was feeling a little under the weather last week but, after a little rest and lots of magical reindeer food, he's back to his usual self now!

Santa has enjoyed finding out about all of the fantastic work that you have been doing and all of the kindness that you have shown each other. He especially loved hearing about the all the great things you have been doing in class and all the lovely things you have made. I even sneakily took a few pieces of your work with me to the North Pole so that I could show him. I hope that was OK, Willow class.

Santa has told me to ask you to keep up the good work. He is very proud of you all. Now that Christmas is getting closer, it's just as important that you all keep trying your best for your teacher, Mrs Curtis-Fisher.

From,

Dobby, Willow's cheeky elf.
