Introduction

Miserden C.E. Primary school offers a spiritual and moral basis for the development of human wholeness and a sure foundation for personal and social values based on the person and ministry of Christ. As a community of faith, Miserden C.E. Primary School should, reflects the nature of the Trinity, a life shared and defined by reference to others. Here we can begin to discover who we are, why we are, and – perhaps most importantly – what we might be.

In our school our Christian vision shapes all we do –

Welcoming and serving all
Through
Discovery, enjoyment and nurture

The school welcomes and serves all in its community. We work to mirror the body of Christ believing that everyone brings gifts and talents that enrich our life together. We treat one another with generosity, compassion, respect, forgiveness and friendship inspired by the parable of the Good Samaritan. We strive to ensure the children of our school receive the very best education possible believing that an excellent standard of Education is an expression of God's love for us.

Staff (and Volunteer) Acceptable Use Policy Agreement
School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools / academies and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:
- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
